SKILLS

3D Art & Tech Art

Environment & Prop Modeling
Game-Ready 3D Asset Creation
PBR Materials & Texturing
Asset Optimization for Real-Time

Game Development (Unity)

Gameplay Prototyping
Game Systems Implementation
2D/3D Game Development
UI Implementation

Programming & Scripting

Java
C#
JavaScript
Python

Tools & Production

Unity
Autodesk Maya
Version Control (Git)
Visual Studio

EDUCATION

2022 – Present HTW Berlin

International Media and Computing

Bachelor of Science
Programming, 3D, Technical Art,
Visual Computing & Games

2016 – 2022 TU Berlin

Industrial Engineering

Bachelor of Science (unfinished)
Civil Engineering & Management

OBJECTIVE

International Media Informatics student with experience in 3D modeling, Game Engines, PBR materials and technical workflows for real-time and visual projects.

Skilled in Unity, Maya and game asset optimization. Seeking to apply and further develop 3D technical skills within a professional creative setting.

PROJECTS

BioTopia (Team Project) | [\[View Project\]](#)

Serious Game for Food4Future & IGZ displaying alternative food production

- Modeled low-poly assets and defined the visual style guide
- Optimized geometry and draw calls for performative mobile deployment
- Set up materials and shaders in Unity for a cohesive visual look

3D Turntable Project | [\[View Project\]](#)

High-detail 3D model of a Technics 1210 MK2 turntable (57k+ vertices)

- Modeled a high-detail 3D asset in Autodesk Maya
- Implemented a PBR material workflow for realistic surfaces
- Produced final renders using Arnold with a 3-point lighting setup

Astro Dungeon | [\[Play on Itch.io\]](#)

2D endless shooter highlighting prototyping and game design

- Designed and implemented a 360° shooting system with directional sprites
- Developed core gameplay loop, difficulty, UI, and local highscore system
- Created pulsating shader in Shader Graph and built an arena using Tilemaps

WORK

Communication & PR Assistant

2023 – 2026

Zukunft findet Stadt - Berlin

- Managing website content (blog, events, pictures/licenses) via Typo3 CMS
- Supporting event planning and schedule coordination across internal teams
- Conducting science communication through blog articles showcasing projects

Event Management & PR Assistant

2020 – 2022

neues handeln AG - Berlin

- Worked on communication projects and events for German federal ministries
- Coordinated external service providers, logistics, and schedules
- Handled media work and background research for multiple projects

LANGUAGES

German (Native)

English (Fluent, C1)
